

Treynor Softball

Jo Ellen Travis talked about the softball season this year. Their record was 20-10 for the year. Thirteen games were rained out this year and only 6 or 7 of them were made-up. Each team can play 35 regular games in the season.

The state athletic association has moved the season two weeks earlier and eliminated the District competition. Therefore, the first game of the season was May 19 instead of June as in past years. Since Treynor is building a new ball field, they only had home games the last week of the season.

All three Seniors on the team this year made Academic All WIC honors. Katie Hempel also received Academic All State honors, which requires a senior to have an ACT of 27 and a GPA of 3.75.

Her husband, Mike Travis, spent a lot of his free time this year working on the new ball fields. Mrs. Travis tracked his time and estimates that he spent over 400 hours working on them.

Mrs. Travis was named District Coach of the Year. She is looking forward to next year's softball season.
