

## **PICKING PLAYGROUND POSSIBILITIES**

JOHN KLEIN has been spearheading an effort to improve the Treynor East Part playground equipment. JOHN explained the committee has received design plans from three companies-Landscape Structures, Inc., Miracle Equipment Co., and Playworld Systems, Inc. JOHN displayed poster-size illustrations of the design plans provided by the companies. He asked for opinions regarding the choices of playground equipment the Club members preferred. JOHN said the committee would be applying for grant funding for the playground design selected. He asked Club members to consider the amount of effort they can provide to raise funds within the community and the amount the Club can pledge to cover the project cost which could total thirty to forty thousand dollars.
