

Treynor Football

Steve Owens spoke to the Treynor Optimist Club on December 28. He started by talking about being grateful for the people that influence your life. The Treynor 2013 football season started off on the new football, soccer, track and marching band facility. This season started with 42 players and ended with 30 at the last game. The team was young but managed to make it to the playoffs. Steve was satisfied with the outcome of the season. They worked hard to create a culture of hard work and toughness. He also encourages all sport competition. He expects enrollment to be the same next year. The seventh and eighth grade both have a small percentage of boys. Football is also being affected by club sports and soccer being added to high school sports. Steve and Bobby continue to work as chaplains with the Storm Chasers Baseball team at Warner Park and lead FCA. Their daughter Hanna is finishing her education at Central College in Pella. She is majoring in elementary special education.
