

Jim Clausen introduced the Speaker Travis Castle, President of Vision Treynor Group on December 14. Vision Treynor Group was started in February of 2010 after a group of concerned community members began talking of ways in which to improve the quality of life in and around Treynor.

Since then, the group has worked tirelessly on a number of items such as evaluating the need of such a project through a community survey, hiring of HGM of Council Bluffs to assist with potential design and cost factors of the project, and land options for potential facility locations. The group has been approved by the IRS as a 501c3 organization.

On June 21, 2010 the Capital Campaign for the Youth Sports Complex & Aquatic Center received a huge jump start with a \$500,000 donation from TS Bank. Funds have continued to come in as of June of 2013 had raised \$768,832. On December 14 The Optimist Club of Treynor donated \$1000 for the Capital Campaign.

Land has been purchase north of the Zion Congregational Church and Cemetery and an Engineer rendering of the highlights of the initial phase can be seen on the group's website [www.visiontreynor.org](http://www.visiontreynor.org)

Not enough funds are available to complete the entire project but plans are to do earth moving so that some of the athletic fields could be put in. **THE GOAL-FEET ON THE GROUND!**
