

**Tour or TS Bank in Treynor**

The Treynor Optimist Club members toured the expansion of the TS Bank in Treynor on September 12. In 1983 they moved into the original bank. The new part of the bank is 13,000 sq. ft. Expansion had delays because the footing had to be replaced and the walls buckled. The Open House will be held after Homecoming. About 80 people will be working at the bank in Treynor.

The new building in Council Bluffs will have four stories. The top floor will be the Trust department. The bottom floor will be for banking. The middle two floors will be leased out.

The TS Bank sponsored Financial Literacy will be in its 7<sup>th</sup> year. They are getting a lot of good feedback from teachers.

A young banker decided to get his first tailor-made suit. As he tried it on, he reached down to put his hands in the pockets but to his surprise found none.

He mentioned this to the tailor who asked him, "You're a banker, right?" The young man answered, "Yes, I am."

"Well, whoever heard of a banker put his hand in his own pocket?"

A man visits his bank manager and says, "How do I start a small business?" The manager replies, "Start a large one and wait six months."

Hospitals report that the hearts of bankers are in strong demand by transplant patients, because they've never been used.

-----

Bankers never die...They just lose interest.

What's the problem with banker jokes? Bankers don't think they're funny, normal people don't think they're jokes.

Einstein dies and goes to heaven only to be informed that his room is not yet ready. "I hope you will not mind waiting in a dormitory. We are very sorry, but it's the best we can do and you will have to share the room with others" he is told by the doorman.

Einstein says that this is no problem at all and that there is no need to make such a great fuss. So the doorman leads him to the dorm. They enter and Albert is introduced to all of the present inhabitants. "See, Here is your first room mate. He has an IQ of 180!"

"That's wonderful!" says Albert. "We can discuss mathematics!"

"And here is your second room mate. His IQ is 150!"

"That's wonderful!" says Albert. "We can discuss physics!"

"And here is your third room mate. His IQ is 100!"

"That's wonderful! We can discuss the latest plays at the theater!"

Just then another man moves out to capture Albert's hand and shake it. "I'm your last room mate and I'm sorry, but my IQ is only 80."

Albert smiles back at him and says, "So, where do you think interest rates are headed?"
