### Volleyball Coach Speaks

**Kim Barents**, head Volleyball Coach for one year at the Treynor Community Schools, spoke to the Treynor Optimists on March 9. A 1990 high school graduate of Thomas Jefferson High School in Council Bluffs, she was a four sport athlete.

Coach Barents was also an athlete at Dakota Wesleyan where she received her secondary education degree. She has taught and coached at Omaha South and is now a PE teacher at Lewis Central Middle School. She has been a JV coach for 14 years. Barents has one son, who will graduate from college in May. He hopes to enter the police force.

Kim recounted the excitement of this year's team making it to state and playing Western Christian, even though the loss was disappointing. She has coached at Lewis Central, but to observe what happens with smaller communities and the whole town of Treynor being at a game at state was thrilling for her.

Barents gives lots of credit to Coach Lovely and her assistant coach for helping the girls develop strength and conditioning. Using a Vertimax definitely improves their vertical jump.

Kim supports athletes being in multi sports. She has mixed feelings about the possibility of changing conferences. Ultimately the goal is for the team to play to be challenged and they add to the program by playing various teams at weekend tournaments. When they play a team who is less challenging, she has the team run skill challenges such as serving to certain spots, trying different plays even though they may not do as well.

As a varsity coach in the off season she can only coach up through the 8<sup>th</sup> grade. She started a Momentum Volleyball Club in Treynor for 11-16 year olds, and she works with the younger girls.

Next year she will have 3 seniors and a number of sophomores and freshmen on the High School Volleyball team.

### **Notes from Treynor Optimist Board Meeting**

Bill Vorthmann, Dale Willenborg, Gary Gutttau, Judy Gutttau, Dee Gutttau met as a Board with Chad Gutttau and John Klein also present to make requests.

John Klein had sent info earlier about a possible service and/or fundraiser project for the Treynor Optimists: Making earplugs available at WestFair for four nights of noisy arena events.

A motion was made by Dale Willenborg, seconded by Bill Vorthmann to seek a grant of \$250 from Trivent and give \$100 from the Treynor Optimist Club to provide earplugs at the Arena Entrance (upon WestFair approval) as a service project to kids and adults at the events. The earplugs cost \$.11 each. All voted aye. Volunteers will be needed during WestFair to make these available.

It was decided by consensus to give info to the high school golf coaches about the Optimist International Iowa Golf Championship and to provide \$100 if a student is interested.

John Klein requested that the Optimist Club meeting end by 8:50 AM on Sat., March 30 to

allow time for anyone wanting to attend the "Treydor Visioning" sessions at St. Paul Lutheran, starting at 9 AM. The group approved.

Chad Gutttau requested a donation for the YMCA fundraising program that he helps with. A motion was made by Bill Vorthmann, seconded by Dee Gutttau to approve \$100. All voted aye.

Gary Gutttau provided Treydor Optimist financials for anyone to review.

There are two kennel openings for 2019 and those will be decided on at a later day. The hope is there will be some more applications.

The group dismissed at 9:38 AM.

### **Corrections to Dan Harbeke's talk last week about Google**

**PlayStore, not AdSense, is one of the eight products with over a billion users.**

**The Grow with Google library tour will be stopping at various libraries in Iowa, including Council Bluffs, in April to help teach digital skills to students, job seekers and educators and will provide additional resources to equip them to continue providing training. I would strike sentence on legislators.**

**An Impact Challenge will also be announced in April to provide resources for non-profit organizations from across the state.**

**BLink is a free community WiFi program in Council Bluffs, and not the name of another program. We have provided grants to non-profits in addition to supporting and helping create BLink, which is one of the largest free community WiFi projects in the country.**
